To Whom It May Concern:

I drink raw milk and eat raw milk products for health reasons. These products, with their live enzymes have helped to return my digestion to what it used to be when I was young.

All the processed foods, including commercially available milk, with their chemical additives, have no live enzymes to support digestion and health of our body. We may as well be eating cardboard.

This is supposed to be a country of free choice. Why are you trying to take away my choice of good health by taking away my ability to purchase raw milk and raw milk products? What right do you have to tell me what I can and can not eat? Leave the farmers alone and let those who wish to eat healthy be free to make that choice.

Sincerely,

A handwritten signature in cursive script that reads "Debra White". The signature is written in black ink and is positioned below the word "Sincerely,".
