

9/7/07

To Senator Mike Brubaker;

My family and I are raw milk consumers and supporters. I think legalizing raw milk products such as yogurts, butters and fresh Cheeses would be a great blessing for everyone. Dairying has changed and the raw product is very clean. The health benefits far outweigh any risks. It would add tremendously to our rural economies just as the roadside produce stand has. Let's make Pennsylvania a model in this area.

Sincerely,

Benjamin Fatski
